

# GreenPE Covers®

**THE SUSTAINABLE OPTION, WITHOUT THE ADDED COST.**

**GreenPE®** post-consumer plastic resin is made from plastic that has been recycled following its original intended use. **GreenPE®** is used to manufacture **GreenPE Covers®**.

## Eco-Friendly Covers

Our cover product line includes seat covers, barrier films, drywall covers, and dust covers. These select covers are made with our 3-layer film in a variety of blends and levels of **GreenPE®**.

## Meet Sustainability Goals

Our first-to-the-market seat cover contains 25% **GreenPE®**, making it the perfect addition to any operation focused on meeting sustainability goals. These recyclable and domestically-made seat covers have the added bonus of lowering carbon impact and contributing to a circular economy, all while keeping the familiar and trusted **Slip-N-Grip®** brand.
